

Products

Examination Management System

Our Examination Management System empowers institutions to seamlessly conduct exams — online or offline — with secure logistics, real-time analytics, AI-based evaluation, and multi-level role management. Built for scale and compliance, it reduces administrative overhead while enhancing transparency and accuracy.

Dynamic Website AI Enabled

At Four Pillars Infotech, we are committed to bringing your ideas to life with dynamic websites that reflect innovation, creativity, and functionality. Let's build a digital experience that sets you apart. Together, we can make your website a powerful tool for success.

Centralized Admission System

At 4 Pillars PVT LTD, we are dedicated to transforming the admission process with our Centralized Admission System. By automating and streamlining operations, we empower institutions to focus on delivering quality education while ensuring a smooth and transparent enrollment experience. Partner with us to simplify and innovate your admission process.

Educational ERP

At 4 Pillars PVT LTD, we are committed to empowering educational institutions with innovative ERP solutions that streamline operations and enhance learning outcomes. Partner with us to drive institutional excellence through smart, technology-driven management.

Cloud AI based Report Management

At Four Pillars Infotech, we are dedicated to helping businesses unlock the true value of their data. Our Report Management System empowers organizations to make smarter decisions, operate more efficiently, and achieve sustainable growth. Partner with us to transform how your business leverages data for long-term success.

iblive.ai – AI-Powered Artistic Expression

iblive.ai is redefining artistic expression by blending AI technology with human emotions. Whether you share a poem, a deep reflection, or simply a thought, our AI transforms it into a visually stunning, one-of-a-kind masterpiece. Every creation is unique, reflecting the essence of your words through artistic brilliance.

EduGen

EduGen simplifies information discovery across India's education system. Built with cutting-edge open-source technology and powered by AI, it empowers educators, administrators, students, and parents with instant, reliable insights.
